1. General information

Eurobank Ergasias S.A. (the 'Bank') and its subsidiaries (the 'Group') are active in retail, corporate and private banking, asset management, insurance, treasury, capital markets and other services. The Bank is incorporated in Greece and its shares are listed on the Athens Stock Exchange. The Group operates mainly in Greece and in Central, Eastern and Southeastern Europe.

These condensed consolidated interim financial statements were approved by the Board of Directors on 31 October 2015.

2. Principal accounting policies

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 'Interim Financial Reporting' and they should be read in conjunction with the Group's published consolidated annual financial statements for the year ended 31 December 2014. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current period. Except as indicated, financial information presented in euro has been rounded to the nearest million.

Going concern considerations

The interim financial statements have been prepared on a going concern basis, as the Board of the Directors considered as appropriate, taking into consideration the following:

Macroeconomic environment

Since May 2010, Greece has undertaken significant structural reforms to restore competitiveness and promote economic growth through a program agreed with the European Union (EU), the European Central Bank (ECB) and the International Monetary Fund (IMF) ('the Institutions'). This had led to a significant fiscal consolidation with a primary surplus of 1% of GDP in 2013 and a primary balance of 0% of GDP in 2014, but also to reform fatigue and social unrest. After the parliamentary elections of 25 January 2015, the new Greek government negotiated and managed to achieve a four-month extension of the Master Financial Assistance Facility Agreement (MFFA) on 20 February 2015. Following the prolonged discussions between the Greek Government and the Institutions, the extension of the MFFA expired on 30 June 2015 without a successful conclusion of the review or a new extension. After the imposition of capital controls and a referendum that led to the rejection of the Eurozone proposal as this was tabled in the negotiations before the expiration of the MFFA, the government restarted the negotiations over a new 3-year European Stability Mechanism (ESM) program with a ca € 86 bn financing envelope, which will permit Greece to service its debt, recapitalize its banks, clear accumulated arrears and finance its budgets. A Preliminary Agreement was reached in the 13 July 2015 Euro Summit. The final agreement on the 3-year ESM program together with an additional series of prerequisite structural reforms passed in the Greek Parliament and got the approval of the Eurogroup on 14 August 2015. The reforms included in the new program aim to restore fiscal sustainability, safeguard financial stability, enhance growth, competitiveness and investment and develop a modern state and public administration. The first installment of the new loan of € 26 bn consists of two sub-tranches: a) € 16 bn of which € 13 bn were disbursed on 20 August 2015 and b) € 10 bn which have been approved for the upcoming banks' recapitalization. On 20 August the Greek Prime Minister announced the resignation of the government and called early elections, which were held on 20 September 2015.

On 8 October 2015, the new coalition government, consisting of the same parties, won the confidence vote for its programmatic statements in the Greek Parliament, paving the way for the implementation of the agreed reforms in order to achieve the timely completion of the first program review, that represents a key prerequisite for i) the release of additional official funding under the 3-year ESM loan facility and ii) the initiation of official discussions on additional debt relief measures to Greece.

In this context, the restrictions in the free movement of capital with their negative impact on the economic activity, and the effect of the new fiscal discipline package agreed under the new bailout program, create material uncertainties on the current Greek macroeconomic environment, with potentially adverse effects on the liquidity and solvency of the Greek banking sector. On the other hand, the demonstrated resilience of the Greek economy, a swift resolution of uncertainty as regards current negotiations with the Institutions on the first program review, the successful recapitalization of the domestic banking system and the mobilization of EU funding to support domestic investment and job creation would facilitate a stabilization of the domestic environment and a resumption of positive economic growth as early as in the second half of 2016.

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

Liquidity risk

Liquidity, of the whole Greek banking sector, was negatively affected in the first two months of 2015 due to the combined effect of deposit withdrawals, reduction of wholesale secured funding and the decision of ECB to lift the waiver of minimum credit rating requirements for marketable instruments issued or guaranteed by Hellenic Republic (i.e. Greek government bonds and Pillar 2 & 3 of the Law 3723/2008). As a result, Greek banks reverted to the fallback funding source, the Emergency Liquidity Assistance (ELA) mechanism to cover their short term liquidity needs.

The prolonged negotiations of the Greek government with the Institutions until the expiration of the extension of the MFFA on 30 June 2015, led to increased uncertainty and significant deposit outflows. With banks' liquidity buffers falling to significantly low levels, the Greek government on 28 June 2015 introduced restrictions on banking transactions and a temporary bank holiday, in order to contain further liquidity outflows. Following the termination of the bank holiday in Greece on 20 July 2015, there has been some gradual relaxation of capital controls with the easing process expected to continue in the following months, being accelerated after the completion of banks' recapitalization.

In accordance with the agreement with the European partners, the authorities are committed to preserving sufficient liquidity in the banking system. The decisive implementation of the measures agreed in the context of the new ESM program and the completion of banks' recapitalization will permit ECB to reinstate the waiver for the instruments issued or guaranteed by the Hellenic Republic and will signal the gradual repatriation of deposits in the banking system and the re-access to the markets for liquidity.

Solvency risk

Despite the fact that the Greek economy showed early signs of recovery during 2014 for the first time since 2007, there are significant downside risks associated with fiscal gap funding uncertainties (as described earlier) and the low levels of investment and consumption levels, which may undermine in the short-term the pace of recovery. The current adverse economic conditions in Greece, including the imposition of capital restrictions, had a negative impact on the liquidity of the Greek banks and raised concerns regarding their solvency position. The new ESM Program agreed between Greece and its European partners in August 2015 includes a buffer of up to € 25 bn for the banking sector in order to address potential banks' recapitalization needs of viable banks and resolution costs of non viable banks, in full compliance with EU competition and State Aid rules.

ECB Comprehensive assessment 2015

In this context, a comprehensive assessment of the Greek banks ('CA') was conducted by the competent supervisory authorities in order to determine their potential capital needs. The results of the CA have been derived taking into account the combined effect of i) an Asset Quality Review (AQR), by reviewing the quality of the Bank's assets, including the adequacy of asset and collateral valuation and related provisions and ii) a forward looking Stress Test based on 6-month 2015 preliminary data so as to assess the resilience of the Greek banks' balance sheets to stress test scenarios for the period 2015-2017. The results of the CA were announced on 31 October 2015 (note 6).

The sufficient specification of the framework for actions to be taken to ensure financial stability and to strengthen the viability of Greek financial institutions (including the funds for potential recapitalization needs) may entail the prior contribution (burden sharing) of the Bank's issued instruments in reducing the capital shortfall by end of 2015. The State Aid rules in force since 1 August 2013 stipulate that in the event that HFSF participates in the capital increase, the prior contribution of preferred securities holders and subordinated creditors is required to reduce the capital shortfall. In addition, unsecured senior liabilities non preferred by mandatory provisions of law may also be eligible instruments for contributing in the potential recapitalization, taking into account the 14 August Eurogroup statement that bail-in will apply for senior debt bondholders, whereas bail in of depositors is excluded (note 6).

The above conditions pose a significant challenge for the Group, the capital adequacy of which was comfortably above the minimum required level a few months ago, following the 14 April 2014 share capital increase of € 2,864 million, fully covered by private investors. The Group expects that the recapitalization process will be completed within the set deadlines constituting a key milestone for rebuilding trust in the banking system and in the economy in general.

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

Going concern assessment

Notwithstanding the conditions and uncertainties mentioned above, the Board of Directors having considered the mitigating factors set out below, have a reasonable expectation that the Group will complete within a specific timeframe all actions and initiatives scheduled to cover the capital shortfall that arose from the recent assessment of the Group's capital needs by ECB. Hence they are satisfied that the financial statements of the Group can be prepared on a going concern basis:

- The existence of the new 3-year ESM program with a ca € 86 bn financing envelope (including the up to € 25 bn recapitalization facility), aiming to restore fiscal sustainability, safeguard financial stability, enhance growth, competitiveness and investment and develop a modern state and public administration,
- The authorities' commitment to take decisive measures to safeguard the stability in the financial sector, such as the draft law specifying the banks' recapitalization framework, that was submitted to the Greek Parliament on 30 October 2015 (note 6),
- The Institutions' and the Greek government's commitment to take decisive actions on non performing loans,
- The Group continues the implementation of its medium term internal capital generating plan, which includes initiatives generating or releasing Common Equity Tier I capital and/or reducing risk weighted assets and
- The Group's continued access to Eurosystem funding (ECB and ELA liquidity facilities) over the foreseeable future.

The accounting policies and methods of computation in these condensed consolidated interim financial statements are consistent with those in the published consolidated annual financial statements for the year ended 31 December 2014, except as described below.

(a) Acquisitions of subsidiaries not meeting the definition of a business

The following accounting policy was added, compared to the principal accounting policies of the Group in the consolidated financial statements for the year ended 31 December 2014:

For acquisitions of subsidiaries not meeting the definition of a business, the Group allocates the consideration to the individual identifiable assets and liabilities based on their relative fair values at the date of acquisition. Such transactions or events do not give rise to goodwill. For information regarding acquisitions of subsidiaries not meeting the definition of a business during 2015, refer to note 17.

(b) Amendments to standards and new interpretations adopted by the Group

The following amendments to standards and new interpretations, as issued by the International Accounting Standards Board (IASB) and the IFRS Interpretations Committee (IC) and endorsed by the European Union (EU), apply from 1 January 2015:

Annual Improvements to IFRSs 2011-2013 Cycle

The amendments introduce key changes to three IFRSs, following the publication of the results of the IASB's 2011-13 cycle of the annual improvements project, as follows:

- Clarify that IFRS 3 'Business Combinations' does not apply to the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself;
- Clarify that the exception in IFRS 13 'Fair Value Measurement' for measuring the fair value of a group of financial assets and financial liabilities on a net basis applies to all contracts within the scope of, and accounted for in accordance with, IAS 39 'Financial Instruments: Recognition and Measurement' or IFRS 9 'Financial Instruments', regardless of whether they meet the definitions of financial assets or financial liabilities under IAS 32 'Financial Instruments: Presentation';
- Address the interrelationship between IFRS 3 'Business Combinations' and IAS 40 'Investment Property', clarifying in the latter that an entity should assess whether: (a) the acquired property is investment property under IAS 40 and (b) the acquisition of investment property constitutes a business combination as defined in IFRS 3.

The adoption of the amendments had no impact on the Group's condensed consolidated interim financial statements.

IFRIC 21, Levies

IFRIC 21 Levies clarifies that an entity recognizes a liability for a levy that is not income tax when the activity that triggers payment, as identified by the relevant legislation, occurs. It also clarifies that a levy liability is accrued progressively only if the activity that triggers payment occurs over a period of time, in accordance with the relevant legislation. For a levy that is triggered upon reaching

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

a minimum threshold, for example a specified level of revenue, the interpretation clarifies that no liability should be anticipated before the specified minimum threshold is reached.

The adoption of the interpretation had no impact on the Group's condensed consolidated interim financial statements. See also note 31.

3. Critical accounting estimates and judgments in applying accounting policies

In the process of applying the Group's accounting policies, the Group's Management makes various judgments, estimates and assumptions that affect the reported amounts of assets and liabilities recognized in the financial statements. Estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

In view of the significant risks and uncertainties that stem from the current macroeconomic environment in Greece and their impact on the prospects of the Greek economy until 2016 that are largely depended on the factors described in note 2, including the effectiveness of the new fiscal discipline measures and the implementation pace of the several structural reforms, the Group revisited the significant judgments and key sources of estimation uncertainty in applying its accounting policies, as these are provided in its published consolidated financial statements for the year ended 31 December 2014. Accordingly, in the second quarter of 2015, the Group formulated the key assumptions and sources of estimation uncertainty that entail a significant risk of resulting in a material adjustment to the carrying amounts of the reported assets and liabilities, as further described in notes 2, 5, 10, 12 and 27.

4. Greek Economy Liquidity Support Program

The Bank participates in the Hellenic Republic's plan to support liquidity in the Greek economy under Law 3723/2008 as in force, as follows:

- (a) First stream preference shares 345,500,000 non-voting, preference shares, with nominal value of € 950 million, were subscribed to by the Hellenic Republic on 21 May 2009 (note 25).
- (b) Second stream bonds guaranteed by the Hellenic Republic As at 30 June 2015, the government guaranteed bonds, of face value of € 16,453 million, were fully retained by the Bank. In January 2015, the Bank issued new government guaranteed bonds of face value of € 2,736 million while by the end of October 2015, the face value of government guaranteed bonds fully retained by the Bank, was decreased by € 2,410 million (note 22).
- (c) Third stream lending of Greek Government bonds Liquidity obtained under this stream must be used to fund mortgages and loans to small and medium-size enterprises. As at 30 June 2015, the Bank had borrowed special Greek Government bonds of face value of € 1,918 million, which were returned in full in August 2015.

Under Law 3723/2008, for the period the Bank participates in the program through the preference shares or the guaranteed bonds (streams (a) and (b) above) the Hellenic Republic is entitled to appoint its representative to the Board of Directors with the right to veto resolutions of strategic character or resolutions which materially alter the legal or financial position of the Bank and require the General Assembly's approval or resolutions related to the dividends' distribution and the remuneration policy concerning the Board members and the General Managers and their deputies, pursuant to a relevant decision of the Minister of Finance or in the event such representative considers that the resolution may jeopardize the interests of the depositors or materially affect the solvency and the orderly operation of the Bank.

In addition, under Law 3756/2009 as in force, any distribution of profits to ordinary shareholders of the banks participating in the first stream of the Greek Economy Liquidity Support Program for the financial years 2008 to 2013 could only take place in the form of ordinary shares, other than treasury shares. In addition, under Law 3756/2009, banks participating in the Greek Economy Liquidity Support Program are not allowed to acquire treasury shares under article 16 of the Company Law.

5. Credit exposure to Greek sovereign debt

As at 30 June 2015, the total carrying value of Greek sovereign major exposures amounted to € 5,051 million (31 December 2014: € 5,728 million). This includes (a) Treasury Bills of € 2,291 million (31 December 2014: € 2,410 million), (b) Greek Government Bonds (GGBs) of € 1,420 million (31 December 2014: € 1,584 million), (c) derivatives with the Greek State of € 848 million (31 December 2014: € 1,102 million), (d) exposure of € 207 million relating with a Greek Sovereign risk financial guarantee (31 December 2014: € 204 million), (e) loans guaranteed by the Greek State of € 173 million (31 December 2014: € 198 million), (f) loans to Greek local authorities and public organizations of € 93 million (31 December 2014: € 103 million), and (g) other receivables of € 19 million (31 December 2014: € 20 million). Reverse repo agreements with public organizations matured in January 2015 (31 December 2014: € 107 million).

As at 30 June 2015, given the challenging financial situation in Greece, the Group evaluated the recoverability of its exposure to Greek sovereign debt, considering the existing economic conditions, the forecast for the Greek economy in the context of the new financial assistance program agreed with the official sector and the financial markets' trends.

Although the agreement for Greece's third bail-out program significantly reduced the country's risk of default and the uncertainty in the markets, the risks that relate with the implementation of the fiscal discipline measures, the structural reforms agenda and the achievement of the agreed fiscal targets still remain, resulting in the continuance of the uncertainty over the prospects of the Greek economy and the capacity of the Greek state to service its sovereign debt.

Notwithstanding the risks and uncertainties mentioned above, the Group, having considered the agreed actions for the Greek economy's revival and the commitments for the stability of the financial sector, has not recognized any impairment losses for Greek sovereign debt securities. Information for the fair values of Greek sovereign exposures carried at fair value is provided in notes 15 and 27.

The adequacy of the impairment allowance for loans and receivables either guaranteed by the Greek state or granted to public related entities was evaluated in the context of the Group's impairment policy and critical accounting estimates' reassessment (note 10).

The Group monitors the developments for the Greek debt crisis closely in order to adjust appropriately its estimates and judgments based on the latest available information.

6. Capital management

Recapitalization framework and process

On 23 July 2015, the Directive 2014/59/EU for the recovery and resolution of credit institutions and investment firms (BRRD) was transposed into Greek Law by virtue of Law 4335/2015, with the exception of its provisions on the bail-in tool which shall be applicable as at 1 January 2016. The said Directive has also been enacted into the national legislation of Bulgaria, Serbia and Romania where the Group has activities.

Pursuant to Law 4335/2015, with respect to Greek credit institutions, the Bank of Greece (BoG) has been designated as the national resolution authority and the Resolution Branch of the Hellenic Deposit and Investment Guarantee Fund ('HDIGF') as the national resolution fund. The powers provided to the said competent Greek authorities are divided into three categories: (a) preparation and prevention with preparatory steps such as recovery plans while BoG prepares a resolution plan for each credit institution, (b) early intervention with predetermined measures at an early stage so as to avoid insolvency and (c) resolution if insolvency of an institution presents a concern as regards the general public interest.

In the context of the said law (article 32 of Law 4335/2015), BoG has the power to apply a set of resolution tools individually or in combination, in case certain trigger conditions for resolution are met as follows: (a) the determination that the institution is failing or is likely to fail, (b) there is no reasonable prospect that any alternative private sector measures or supervisory action taken in respect of the institution, would prevent the failure of the institution within a reasonable timeframe and (c) there is a necessity of a resolution action in favor of the public interest.

The said resolution tools are the following: (a) sale of business, (b) bridge institution, (c) asset separation (which may be used only in conjunction with other tools) and (d) as of 1 January 2016 the bail-in tool.

Additionally, in adverse conditions of a systemic crisis, extraordinary public financial support may be provided through (additional) financial stabilization tools, which consist of public equity support and temporary public ownership (articles 57 and 58 of Law

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

4335/2015). As of 1 January 2016, for the said public financial support to be provided, shareholders, holders of other instruments of ownership, holders of relevant capital instruments and other eligible liabilities need to have contributed, through write down, conversion or otherwise, to loss absorption and recapitalization equal to an amount not less than 8 % of total liabilities including own funds of the institution under resolution (article 56 of Law 4335/2015).

According to Law 4336/2015, it is provided that all the necessary political actions for the assurance of financial stability and the enforcement of the viability of the banking sector shall be taken. The principal strategic concern shall focus on the restoration of financial stability and improvement of the banks' viability through the following measures: i) normalization of liquidity and payment conditions and enforcement of banking assets, ii) enforcement of corporate governance and iii) dealing with the problem of non-performing loans. In this context, a capital buffer of up to € 25 bn is provided to address potential recapitalization needs of viable banks and the resolution cost of non-viable banks, in full compliance with the regulations of the EU for competition and public assistance.

On 30 October 2015, the Greek Government submitted to the Greek Parliament a draft law which amends the law regarding the Hellenic Financial Stability Fund (i.e. Law 3864/2010 as in effect and applied until today), in order to align it with the integration of the BRRD directive and the new recapitalization framework.

The most significant changes of Law 3864/2010 in the abovementioned draft law with respect to the recapitalization framework are set out below:

According to article 6 of Law 3864/2010, as amended by the present draft law, in case the credit institution has a capital shortfall, it may submit a request for capital support to HFSF up to the amount of the shortfall, as determined by the competent authority (either the European Central Bank in the context of the SSM or Bank of Greece). The request is followed by a letter of the competent authority, which defines the amount of the capital shortfall, the conclusive date by which the credit institution shall cover the abovementioned capital shortfall and the capital raising plan as submitted to the competent authority. The said request is also followed by an amendment draft of the already approved by the European Commission restructuring plan, or alternatively by a draft restructuring plan, as the case may be.

According to article 6a, in the event that the voluntary measures set out in the credit institution's restructuring plan or amended restructuring plan, as the case may be, are insufficient to cover its capital shortfall and there is a need to avoid significant side effects to the economy with adverse effects upon the public, and in order to ensure that the use of public funds remains the minimum necessary, the Cabinet, following a recommendation by the Bank of Greece, would issue an Act for the mandatory application of the measures provided in this article 6a (burden-sharing measures), aimed at allocating the residual amount of the capital shortfall of the credit institution to the holders of its capital instruments and other obligations, as may be deemed necessary. The unsecured senior liabilities non preferred by mandatory provisions of law have been added to the instruments, whose nominal value may be reduced or which may be converted to ordinary shares in order to restore capital adequacy as required by the competent authority.

It is also provided that in case of conversion of the preference shares of Law 3723/2008 into ordinary shares in accordance with article 6a of Law 3864/2010, the HFSF acquires ownership of such ordinary shares.

According to new article 6b, in case the Minister of Finance decides -in accordance with the provisions of article 56 of Law 4335/2015- to implement (as a financial stabilization tool) the public equity support tool of article 57 of Law 4335/2015, HFSF participates in the recapitalization of the credit institution and receives in exchange Common Equity Tier 1 (CET1) instruments and additional Tier 1 instruments or Tier 2 instruments, described in article 57, par. 1 of Law 4335/2015.

According to article 7, the HFSF provides capital support as determined by the competent authority, but only up to the amount of the relevant credit institution's capital shortfall remaining outstanding after the implementation of the voluntary measures and mandatory (burden-sharing) measures provided in article 6 and following any potential participation of private investors and the approval of the restructuring plan by the European Commission and further following:

- (i) completion of the mandatory (burden-sharing) measures of article 6a of Law 3864/2010 and confirmation by the European Commission (as part of the approval of the restructuring plan) that the credit institution concerned falls within the ambit of the exception of the article 32 of Law 4335/2015; or
- (ii) placement of the credit institution concerned into resolution (articles 56 and 57 of Law 4335/2015) and taking of the measures required by Law 4335/2015,

in each case through HFSF's subscription for ordinary shares, Contingent Convertible Securities (CoCos) or other convertible financial instruments issuable by the credit institution. For these purposes, the HFSF may exercise, dispose of or waive any preemption rights in the context of a share capital increase or issue of CoCos or other convertible financial instruments.

The exact proportion of HFSF's participation between ordinary shares, the conditions for the issuance of CoCos or other convertible financial instruments, as well as the conditions for the conversion of such instruments and any other necessary details will be set for in a Cabinet Act.

Furthermore, the subscription price of the new shares is defined as the market price as it occurs from the bookbuilding process of the credit institution. By decision of the General Council of the HFSF, HFSF can accept this price on the basis of a valuation of an independent financial advisor, who estimates that the book building process is in accordance with international best practice at certain circumstances.

Other than the amendments in relation to the recapitalization framework, new provisions are introduced, according to article 10, that allow the HFSF to evaluate the Board and Committees of the credit institutions based on the best international practices.

⁽¹⁾ pro-forma with the regulatory treatment of eligible Deferred Tax Assets (DTAs) as Deferred Tax Credits (DTCs) (note 12).

The Group has sought to maintain an actively managed capital base to cover risks inherent in the business. The adequacy of the Group's capital is monitored using, among other measures, the rules and ratios established by the Basel Committee on Banking Supervision ('BIS rules/ratios') and adopted by the European Union and the Bank of Greece in supervising the Bank. As of 1 January 2014 the capital adequacy calculation is based on Basel III (CRDIV) rules. Supplementary to that, in the context of Internal Capital Adequacy Assessment Process ('ICAAP'), the Group considers a broader range of risk types and the Group's risk and management capabilities. ICAAP aims ultimately to ensure that the Group has sufficient capital to cover all material risks that it is exposed to, over a 12-month horizon.

During the last years the Group, apart from the share capital increase of € 2,864 million completed in April 2014, focused on the organic strengthening of its capital position by active derisking of lending portfolios through tighter credit policies and change in the portfolio mix in favor of more secured loans as well as by proceeding to several strategic initiatives to internally generate capital.

Finally, the Group is examining a number of additional initiatives for enhancing its capital base, associated with the restructuring, transformation or optimization of operations, in Greece and abroad, that will generate or release further capital and/or reduce Risk Weighted Assets.

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

European Central Bank's 2015 Comprehensive Assessment

The adverse economic conditions in Greece, especially since the second quarter of 2015, had a negative impact on the liquidity of the Greek banks and raised concerns regarding their solvency position (note 2). In accordance with the preliminary agreement of the 12 July 2015 Euro summit, the new ESM program would have to include the establishment of a buffer of € 10 bn to € 25 bn for the banking sector in order to address potential bank recapitalization needs and resolution costs and the ECB /SSM would conduct a CA of the supervised four Greek banks.

In this context, the CA was conducted taking into account the combined effect of:

- (a) An Asset Quality Review (AQR), by reviewing the quality of the banks' Greek portfolios, including the adequacy of asset and collateral valuation and related provisions; and
- (b) A forward looking Stress Test (ST) to examine the resilience of the banks' balance sheet to a potential further deterioration of market conditions.

Capital adequacy was assessed over a three-year time period (2015-2017) under two ST scenarios: baseline and adverse. According to the ST process, the banks used as reference the preliminary data for the second quarter of 2015 and submitted their 3-year business plans built on base case assumptions: GDP growth as provided from ECB for 2015 -2.3%, 2016 -1.3% and 2017 +2.7%, while the other assumptions, including credit and deposit growth, were based on the four banks Economists' consensus. These business plans were stress-tested by ECB under the baseline and adverse scenarios to assess potential capital shortfalls.

On 31 October 2015, ECB announced the results of the CA on the four systemically important Greek Banks, including the Bank.

CA results for Eurobank

The CA results for Eurobank are summarized as follows:

AQR Results

The AQR constituted a thorough review of the carrying values of the Bank's Greek portfolios as of 30 June 2015 encompassing 98% of the Greek portfolio. The AQR identified additional provisioning needs, leading to a CET1 ratio of 8.6%, after taking into account the entire amount of losses identified in the AQR, which implies a capital shortfall of € 339 million, relative to the threshold of a CET1 ratio of 9.5%. The AQR-adjusted capital position provided the starting point for the Stress Test (ST).

Stress test Results

The ST under the baseline scenario has not triggered further negative impact on the Bank's solvency position, maintaining the post-AQR and baseline scenario CET1 at 8.6%, which corresponds to a capital shortfall of € 339 million, relative to a CET1 ratio of 9.5%, which is the threshold in the baseline scenario of the ST.

The ST under the adverse scenario identified further negative impacts on the Bank's solvency position, leading to a CET1 ratio of 1.3%, which implies a capital shortfall of € 2,122 million, relative to a CET1 ratio of 8%, which is the threshold in the adverse scenario of the ST.

Following these results, the Bank will shortly submit a capital plan to the ECB for approval, describing in detail the measures it intends to implement in order to cover the shortfall identified in the CA, for under both the base and the adverse scenario.

The 2015 AQR is a prudential exercise, which was performed under the same methodology as the 2014 AQR. This methodology was developed by ECB for the purpose of the 2014 CA in order to ensure consistency across banks without introducing greater prescription into the accounting rules outside of the supervisory mechanisms.

The results of the AQR had no effect on the accounting policies applied by the Group for the six months ended 30 June 2015, which are described in note 2 of the Financial Statements for the year ended 31 December 2014. Furthermore, the AQR impact has been already captured in the first half of 2015 to the appropriate extent through the application of the Group's existing impairment accounting policies, which incorporate the constant evaluation and calibration of estimates and judgments based on the latest available information (note 10).

Restructuring plan

On 29 April 2014, the European Commission approved the Bank's restructuring plan, as it was submitted through the Greek Ministry of Finance on 16 April 2014. The Hellenic Republic has committed that the Bank will implement in particular specific measures and actions and will achieve objectives which are integral part of said restructuring plan.

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

Principal commitments to be implemented by the end of 2018 relate to (a) the reduction of the total costs and the net loan to deposit ratio for the Group's Greek activities, (b) the reduction of the Bank's cost of deposits, (c) the reduction of the Group's foreign assets, (d) the decrease of the shareholding in specific non banking subsidiaries, (e) the securities portfolio deleveraging, and (f) restrictions on the capital injection to the Group's foreign subsidiaries unless the regulatory framework of each relevant jurisdiction requires otherwise, the purchase of non investment grade securities, the staff remuneration, the credit policy to be adopted and other strategic decisions.

In the context of the new recapitalization process, in case that additional State Aid is necessary, the restructuring plan will be revisited and resubmitted for approval to the European Commission. The approval process is expected to be completed within 2015.

Monitoring Trustee

The Memorandum of Economic and Financial Policies (MEFP) of the Second Adjustment Program for Greece between the Hellenic Republic, the European Commission, the International Monetary Fund (IMF) and the European Central Bank (ECB) provides for the appointment of a monitoring trustee in all banks under State Aid.

On 22 February 2013, the Bank appointed Grant Thornton as its Monitoring Trustee (MT). The MT monitors compliance with commitments on corporate governance and commercial operational practices, and the implementation of the restructuring plan and reports to the European Commission.

7. Segment information

Management has determined the operating segments based on the internal reports reviewed by the Executive Board that are used to allocate resources and to assess their performance in order to make strategic decisions. The Executive Board considers the business both from a business unit and geographic perspective. Geographically, management considers the performance of its business in Greece and other countries in Europe (International). Greece is further segregated into retail, wholesale, wealth management, global and capital markets. International is monitored and reviewed on a country basis. The Group aggregates segments when they exhibit similar economic characteristics and profile and are expected to have similar long-term economic development.

The Group is organized in the following reportable segments:

- Retail: incorporating customer current accounts, savings, deposits and investment savings products, credit and debit cards, consumer loans, small business banking and mortgages.
- Corporate: incorporating direct debit facilities, current accounts, deposits, overdrafts, loan and other credit facilities, foreign currency and derivative products to corporate entities.
- Wealth Management: incorporating private banking services, including total wealth management, to medium and high net worth individuals, insurance, mutual fund and investment savings products, and institutional asset management.
- Global and Capital Markets: incorporating investment banking services including corporate finance, merger and acquisitions advice, custody, equity brokerage, financial instruments trading and institutional finance to corporate and institutional entities, as well as, specialized financial advice and intermediation to private and large retail individuals as well as small and large corporate entities.
- International: incorporating operations in Romania, Bulgaria, Serbia, Cyprus, Ukraine and Luxembourg.

Other operations of the Group comprise mainly investing activities, including property management and investment and the management of unallocated capital.

The Group's management reporting is based on International Financial Reporting Standards (IFRS). The accounting policies of the Group's operating segments are the same with those described in the principal accounting policies.

Revenues from transactions between business segments are allocated on a mutually agreed basis at rates that approximate market prices.

2,986	2,677	9/5	3,487	305	1,229	11,667

⁽¹⁾ Income/(loss) from associated undertakings and joint ventures is included.

Note: In the second quarter of 2015, the Bank transferred its operations in United Kingdom (London branch) to its subsidiary Eurobank Private Bank Luxemburg S.A. In particular, at the date of transfer total assets of London branch amounted to \leq 198 million and total liabilities amounted to \leq 196 million.

8. Earnings per share

Basic earnings per share is calculated by dividing the net profit attributable to ordinary shareholders by the weighted average number of ordinary shares in issue during the period, excluding the average number of ordinary shares purchased by the Group and held as treasury shares.

The diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all potentially dilutive ordinary shares. The categories of Group's potentially dilutive ordinary shares are as follows: a) convertible, subject to certain conditions, preferred securities (Series D, note 26) and b) share options (until December 2014).

		Six months ended 30 June		Three months ended 30 June	
		2015 2014		2015	2014
Net profit/(loss) for the period attributable to shareholders	€ million	(1,412)	(508)	(1,318)	(301)
Net profit/(loss) for the period from continuing operations attributable to shareholders	€ million	(1,359)	(281)	(1,272)	(206)
Weighted average number of ordinary shares in issue for basic and diluted earnings/(losses) per share	Number of shares	14,696,410,871	8,275,822,320	14,691,149,515	11,051,797,478
Earnings/(losses) per share					
- Basic and diluted earnings/(losses) per share	€	(0.10)	(0.06)	(0.09)	(0.03)
Earnings/(losses) per share from continuing operations					
- Basic and diluted earnings/(losses) per share	€	(0.09)	(0.03)	(0.09)	(0.02)

Basic and diluted losses per share from discontinued operations for the period ended 30 June 2015 amounted to € 0.004 (30 June 2014: € 0.03 losses).

The Series D of preferred securities (note 26) were not included in the calculation of diluted earnings/ (losses) per share, as their effect would have been anti-dilutive. Share options did not have an effect on the diluted earnings/ (losses) per share for the first half of 2014, as their exercise price exceeded the average market price of the Bank's shares for the period.

9. Operating expenses

	30 June	30 June
	2015	2014
	<u>€ million</u>	€ million
Staff costs	(271)	(291)
Administrative expenses	(154)	(164)

Amortisation of intangible assets	(13)	(16)
Operating lease rentals	(26)	(28)
Total from continuing operations	(494)	(535)

The average number of employees of the Group during the period was 17,682 of which the employees of Ukraine subsidiaries was 727 (June 2014: 18,528 of which the employees of Ukraine subsidiaries was 838). As at 30 June 2015, the number of branches of the Group was 981 of which the branches of Ukraine subsidiaries was 45.

⁽²⁾ Interbank eliminations between International and the other Group's segments are included. As at 31 December 2014, segment assets and segment liabilities of Global & Capital Markets have been adjusted by € 2.5 bn and € 1.1 bn respectively, equally affecting the elimination center.

⁽³⁾ Intercompany balances among the Countries have been excluded from the reported assets and liabilities of International segment.

10. Impairment allowance for loans and advances to customers

The movement of the impairment allowance for loans and advances to customers by product line is as follows:

			30 June 2015		
	Wholesale	Mortgage	Consumer (1)	Small business	Total
	<u>€ million</u>

movements	29	16	(21)	8	32
Balance at 30 June	4,776	2,143	2,696	2,107	11,722

⁽¹⁾ Credit cards balances are included

The critical accounting estimates and judgements that are made by the Group's Management in assessing the impairment losses on loans and advances to customers are evaluated constantly, particularly in circumstances of economic uncertainty, based on the latest available information and expectations of future events that are considered reasonable.

In this context, in the second quarter of 2015, the Group assessed the borrowers' financial performance, the recovery value of the underlying collaterals and calibrated its provisioning models in order to reflect:

- the negative ramifications of the recent financial and political turmoil in Greece, i.e. the third bailout program that provides, among others, for a new package of fiscal measures, the prolonged uncertainty of domestic political landscape and the imposition of capital controls;
- their consequential impact on the Greek economy's prospects until 2016, i.e. increased market uncertainly, mainly relating with the satisfactory implementation of fiscal sustainability measures and the safeguarding of financial stability, worsening of GDP rate, continuation of high unemployment rate, negative investment growth and reduction of import/export activity. Particularly, the macroeconomic assumptions provided by the Single Supervisory Mechanism in August 2015 regarding the real GDP's growth rate, i.e. decline by 2.3% in 2015, decline by 1.3% in 2016, increase by 2.7% in 2017, as well as the unemployment rate's level, i.e. 26.9% in 2015, 27.1% in 2016 and 25.7% in 2017, were taken into consideration in estimating the impairment losses. Prior to the recent financial crisis, the Group's own estimates on the respective macroeconomic variables provided for the growth of the real GDP rate by 0.2% in 2015, 2.0% in 2016 and 2.5% in 2017, and the gradual decrease of the unemployment rate to 25.7% in 2015, 24.0% in 2016 and 22.0% in 2017;
- the downward trend in the real estate market in Greece, based on the latest available information and the expected further delay of its recovery period. Particularly, the residential property prices are estimated to decline by 5.8% in 2015, 2.4% in 2016 and increase by 1.6% in 2017. On the other hand, the commercial property prices are estimated to decline by 3.7% in 2015, 0.3% in 2016 and increase by 1.3% in 2017. The above estimates for residential and commercial properties represent the consensus forecasts of the Chief Economists of the four Greek systemic banks and the Group's own estimates. Prior to the recent financial crisis, the latest available information on the respective variables, as was published by the European Banking Authority and taken into consideration by the Group, provided for the decline of the residential property prices by 3.7% in 2015 and 1.2% in 2016, and the decline of commercial property prices by 0.8% in 2015 and the increase by 0.6% in 2016. Additionally, in view of the revised estimates on property prices, as well as the updated information on market's activity and range of prices, the Group applied more conservative haircuts on collaterals' values, in order to reflect appropriately their recovery amount.

Additionally, as at 30 June 2015, in assessing the adequacy of impairment losses on loans and advances to customers, the Group took into consideration the 2015 AQR results and their underlying assumptions, the impact of which has been already captured, to the appropriate extent, based on its existing impairment policies and within the context of its revised estimates, as described above (see also note 3).

Accordingly, in the second quarter of 2015, the Group recognized an impairment loss of € 657 million and € 1,179 million for wholesale and retail loan exposures, respectively. Considering the interrelationship among the key parameters used by the Group for the measurement of impairment losses, as described above, it is not practicable to quantify separately the effect of each key parameter, in a reliable manner.

11. Other impairment and non recurring income/(expenses)

	30 June	30 June
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Impairment and valuation losses on investment and repossessed		
properties	(46)	(38)
Impairment losses on bonds	(20)	(24)
Impairment losses on goodwill	0	(2)
Impairment losses on mutual funds and equities	(9)	-
Other impairment losses	(75)	(64)
Reversal of provision for claims in dispute	-	103
Integration costs relating with the operational merger of NHPB and New Proton	(0)	(10)
Restructuring costs	(3)	(1)
Restructuring costs and other non recurring income/(expenses)	(3)	92
Total	(78)	28

The deteriorating macroeconomic conditions described in note 10 and the persistent decline in real estate market prices in Greece were taken into consideration in assessing the recoverable amount of investment and repossessed properties portfolio. As a result, as at 30 June 2015, the Group recognized impairment and valuation losses on investment and repossessed properties mainly in Greece amounting to € 46 million.

In the first half of 2015, the Bank recognized an additional impairment loss of € 20 million for the Ukrainian government bonds that are included in its held-to-maturity investment portfolio, due to the continued uncertainty in the economic and political conditions in the country, that led to a significant drop in the market prices of those bonds.

The market's positive reaction to the terms of the restructuring offer, announced by the Ukrainian government on 27 August 2015, led to the recovery of the Ukrainian securities' market prices that are, subsequent to the announcement, traded at significant higher levels. Additionally, the payment suspension of certain sovereign bonds maturing in September 2015, as it was explicitly stated by the Ukrainian government in the above mentioned announcement due to the forthcoming restructuring agreement, triggered the settlement of the Group's Credit Default Swaps (CDSs) that are directly linked with the specific Ukrainian government bonds mentioned above. Following the ISDA's (International Swaps and Derivatives Association) auction on 6 October 2015, the settlement of the CDSs took place on 13 October 2015. Therefore, as of 30 September 2015, the Group proceeded with the partial reversal of the cumulative recognized impairment by € 30 million, in order to reflect the settlement price.

As at 31 March 2014, the Group proceeded with the release of the provision of € 103 million, recognized in 2013 based on the management's estimates of the final amount of the consideration to be received for the disposal of Polish operations.

12. Income tax and non recurring tax adjustments

	30 June	30 June
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Current tax	(32)	(27)
Deferred tax	472	164
Income tax	440	137
Recognition of DTA following Circular 1143/15.05.2014	-	37
Reversal of provision of withholding tax claims	-	43
Refund of 2009's special tax contribution	<u>-</u>	2
Tax (charge)/income from continuing operations	440	219

According to Law 4172/2013, as was in force at the end of the current reporting period, the nominal Greek corporate tax rate applied for income generated in accounting year 2014 and for the period ended 30 June 2015 was 26%. In addition, dividends distributed, other than intragroup dividends which under certain preconditions are relieved from both income and withholding tax, are subject to 10% withholding tax.

According to law 4334/2015, which was enacted on 16 July 2015 and amended tax law 4172/2013, the nominal Greek corporate tax rate increased from 26% to 29% for income generated in accounting years 2015 and onwards. This change, which is a non adjusting event for the period ended 30 June 2015 will result in an increase of net deferred tax asset by € 508 million and current tax liability by € 1.6 million.

In May 2014, the Ministry of Finance with its Circular 1143/15.05.2014 provided clarifications for the application of tax Law 4172/2013. In particular, with the said Circular, it was clarified that the accumulated losses from shares and derivatives which had been recognized in accordance with the former tax Law 2238/1994 can be utilized for tax purposes (i.e. are added to carried forward tax losses). Hence, during the first half of 2014, the Group recognized in income statement a one off tax income of € 37 million. In addition, as at 30 June 2014, following a favourable Supreme Court decision, the Group recognized a non recurring tax income of € 43 million due to reversal of provisions in relation to withholding tax claims against the State.

For the year ended 31 December 2011 and onwards, the Greek sociétés anonymes and limited liability companies whose annual financial statements are audited compulsorily, are required to obtain an 'Annual Tax Certificate' provided for in article 82 of Law 2238/1994 (currently article 65a of Law 4174/2013), which is issued after a tax audit is performed by the same statutory auditor or audit firm that audits the annual financial statements. According to the relevant Ministerial Decision 1159/2011, 18 months after the issuance of a tax unqualified certificate, provided that no tax issues have been identified from the tax authorities' potential reaudits, the tax audit is considered finalized. Further tax audits may be effected only in cases of tax offences that have been identified by the Ministry of Finance audits (i.e. breaches of the money laundering legislation, forged or fictitious invoices, transactions with non-existent companies or breaches of transfer pricing rules).

The Bank has been audited by tax authorities up to 2009, has not been audited for 2010 and has obtained by external auditors unqualified tax certificates for years 2011 – 2014. In addition, New TT Hellenic Postbank and New Proton Bank, which were merged with the Bank in 2013, have obtained by external auditors unqualified tax certificate with a matter of emphasis for their unaudited by tax authorities periods/tax years 18/1-30/6/2013 and 9/10/2011- 31/12/2012, respectively, with regards to potential tax obligations resulting from their carve out. For both cases the Bank has formed adequate provisions.

Group's subsidiaries, associates and joint ventures which operate in Greece (notes 17 and 18) have not been audited for 1 to 5 tax years and where applicable (i.e. entities that are subject to statutory audit by external auditors) have obtained unqualified tax certificates for years 2011 – 2014.

In accordance with the aforementioned tax legislation and considering related preconditions, tax audit for the years 2011 and 2012 for the Bank and the said entities is considered finalized, according to Ministerial Decision 1159/2011.

The open tax years of foreign Group's bank subsidiaries are as follows: (a) Bancpost S.A. (Romania), 2011-2014, (b) Eurobank Cyprus Ltd, 2012-2014, (c) Eurobank Bulgaria A.D., 2013-2014, (d) Eurobank A.D. Beograd (Serbia), 2010 -2014, and (e) Eurobank Private Bank Luxembourg S.A., 2009-2014. The remaining of the Group's foreign entities (notes 17 and 18), which operate in countries where a statutory tax audit is explicitly stipulated by law, have 1 to 10 open tax years.

Deferred income taxes are calculated on all temporary differences under the liability method as well as for unused tax losses at the rate in effect at the time the reversal is expected to take place.

The movement on deferred income tax is as follows:

	30 June
	2015
	<u>€ million</u>
Balance at 1 January	3,872
Income statement credit/(charge) from continued operations	472
Income statement credit/(charge) from discontinued operations	18
Available for sale investment securities	71
Cash flow hedges	(5)
Other	(3)
Balance at 30 June	4,425

Deferred income tax assets/(liabilities) are attributable to the following items:

	30 June 2015 <u>€ million</u>	31 December 2014 <u>€ million</u>
PSI+ tax related losses	1,189	1,211
Loan impairment	2,466	1,980
Unused tax losses	270	283
Valuations through the income statement	266	250
Costs directly attributable to equity transactions	45	48
Cash flow hedges	31	35
Valuations directly to available-for-sale revaluation reserve	84	12
Fixed assets	(3)	(8)
Defined benefit obligations	10	9
Other	67	52
Net deferred income tax	4,425	3,872

The net deferred income tax is analysed as follows:

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Deferred income tax assets	4,432	3,894
Deferred income tax liabilities (note 23)	<u> </u>	(22)
Net deferred income tax	4,425	3,872

Deferred income tax (charge)/credit in the income statement is attributable to the following items:

	30 June	30 June
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Loan impairment	487	130
Unused tax losses	(13)	50
Tax deductible PSI+ losses	(22)	(22)
Change in fair value and other temporary differences	38	69
Deferred income tax (charge)/credit	490	227

As at 30 June 2015, the Group recognized net deferred tax assets amounting to € 4.43 bn as follows:

- (a) € 1,189 million refer to losses resulted from the Group's participation in PSI+ and the Greek's state debt buyback program which are subject to amortization (i.e. 1/30 of losses per year starting from year 2012 and onwards) for tax purposes;
- (b) € 2,466 million refer to temporary differences arising from loan impairment that can be utilized in future periods with no specified time limit and according to current tax legislation of each jurisdiction;
- (c) € 270 million refer to unused tax losses. The ability to utilize tax losses carried forward mainly expires in 2018;
- (d) € 45 million mainly refer to costs directly attributable to Bank's share capital increases, subject to 10 years' amortization for tax purposes starting from the year they have been incurred;
- (e) € 455 million refer to other temporary differences the majority of which can be utilized in future periods with no specified time limit and according to the applicable tax legislation of each jurisdiction.

The recognition of the above presented deferred tax assets is based on management's assessment that it is expected that the respective Group entities, based on their business plans, will have sufficient taxable profits, against which the unused tax losses and the deductible temporary differences can be utilized.

According to article 5 of Law 4303/2014 (a new article 27A was incorporated in the Law 4172/2013), which is applicable to Greek financial institutions, including leasing and factoring companies, deferred tax assets that have been or will be recognized due to losses from the Private Sector Involvement ('PSI') and the Greek State Debt Buyback Program, accumulated provisions and other general losses due to credit risk in relation to existing receivables as of 31 December 2014 (excluding any receivables raised for Group companies or connected parties), will be converted into directly enforceable claims (tax credit) against the Greek State, provided that the after tax accounting result for the period, is a loss. As at 30 June 2015, deferred tax assets eligible for conversion to tax credits amounted to € 3,667 million.

The total amount of the claim will be determined by multiplying the above eligible deferred tax assets with a ratio that represents the after tax accounting loss of the period as a percentage of total equity, excluding the after tax accounting loss of the period.

The claim will arise upon approval of the financial statements and will be offset against the relevant amount of income tax. When the amount of income tax is insufficient to offset the above claim, any remaining claim will give rise to a direct refund right against the Greek State. For this purpose, a special reserve equal to 110% of the above claim will be created exclusively for a share capital increase and the issuance of capital conversion rights (warrants) without consideration in favor of the Greek State. The above rights will be convertible into ordinary shares and will be freely transferable. Existing shareholders will have a call option within a reasonable period based on their participation in the share capital at the time of issuance of those rights. Furthermore Law 4172/2013 also provides for the issuance of a Ministerial Cabinet Act to address the implementation details relevant to the conversion of eligible deferred tax assets into a tax credit.

On 7 November 2014, the Extraordinary General Meeting of the Shareholders of the Bank approved the Bank's participation in the above described mechanism which is effective from the tax year 2015 onwards.

Post balance sheet events

According to Law 4336/2015 which has been voted on 14 August 2015 there is a provision, amongst others, for the future amendment of the aforementioned legal framework for the conversion of Deferred Tax Assets (DTAs) to tax credit against the Greek State, with the view of minimizing the funding from the new ESM program and the connection between banks and the State.

A draft law referring to the Greek Banks' recapitalization was submitted to the Greek Parliament on 30 October 2015. Such draft bill includes, amongst others, a provision amending the existing Deferred Tax Credits (DTCs) framework. The main proposed amendments provide that eligible DTAs could be converted into DTCs from fiscal year 2016 onwards and that the eligible DTA on accumulated provisions and other losses in general due to credit risk is the one corresponding to those (provisions and credit losses) accounted as at 30 June 2015.

13. Discontinued operations and disposal groups

Operations in Ukraine classified as held for sale

In March 2014, management committed to a plan to sell the Group's operations in Ukraine (including Public J.S.C. Universal Bank and ERB Property Services Ukraine LLC). The sale was considered probable, therefore, the Group's operations in Ukraine were classified as a disposal group held for sale. The Group's operations in Ukraine are presented in the International segment.

Following the classification of the disposal group as held for sale, in accordance with IFRS 5, the Group has measured it at the lower of its carrying amount and fair value less costs to sell. This is a non-recurring fair value measurement, categorised as Level 3 in the fair value hierarchy due to the significance of the unobservable inputs. The fair value less cost to sell has been determined using the bid offers received from third parties for the sale of the Group's operations in Ukraine, where the Group did not perform any further significant adjustments.

The continuing adverse economic, geopolitical and political conditions in the country escalating during 2014 led to an extension of the period to complete the sale beyond one year. The Group's operations in Ukraine continue to be classified as a disposal group held for sale, as the Group remains committed to its plan to sell that disposal group. As at 30 June 2015, cumulative losses (mainly currency translation differences) related to the Ukrainian held for sale operations recognized in other comprehensive income amounted to € 68 million (30 June 2014: € 56 million).

The results of the Group's held for sale and discontinued operations are set out below.

	Six months ended 30 June	
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Net interest income	2	8
Net banking fee and commission income	1	1
Other income/(loss) (1)	(6)	6
Operating expenses	(8)	(11)
Impairment and remeasurement losses on loans and advances	(60)	(163)
Profit/(loss) before tax from discontinued operations	(71)	(159)
Income tax	18	8
Profit/(loss) after tax from discontinued operations	(53)	(151)
Gain/(loss) on disposal before tax (2)	-	(70)
Loss on the remeasurement of non-current assets of disposal group	-	(24)
Income tax on gain/(loss) on disposal (2)	-	18_
Net profit/(loss) from discontinued operations	(53)	(227)
Net profit/(loss) from discontinued operations attributable to non controlling interests	(0)	(0)
Net profit/(loss) from discontinued operations attributable to shareholders	(53)	(227)

 $^{^{(1)}}$ Mainly referring to FX losses for the first half of 2015

The major classes of assets and liabilities classified as held for sale are as follows:

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Cash and balances with central banks	18	29
Due from credit institutions	2	1
Trading and investment securities	10	44
Loans and advances to customers	120	194
Other assets	2	2
Total assets of disposal group classified as held for sale	152	270
Due to credit institutions	0	4
Due to customers	113	157
Other liabilities	3	3
Total liabilities of disposal group classified as held for sale	116	164
Net Group funding associated with Ukraine assets held for sale	137	141
Net assets of disposal group classified as held for sale	(101)	(35)

14. Loans and advances to customers

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Wholesale lending	20,049	19,475
Mortgage lending	18,740	18,355
Consumer lending (1)	6,626	6,768
Small business lending	7,377	7,283
	52,792	51,881
Less: Impairment allowance (note 10)	(11,722)	(9,748)
	41,070	42,133
Included in gross loans and advances are:		-
Past due more than 90 days	18,102	17,302

⁽¹⁾ Credit cards balances are included

⁽²⁾ During the first half of 2014 the gain on the disposal of Polish operations was adjusted with € 70 million losses, before tax (€ 52 million losses, after tax), while the relating provision recognized in 2013 based on management's estimates of the final amount of the consideration to be received was released accordingly (note 11).

In the first half of 2015, gross loans balance was significantly affected by the appreciation of CHF and USD against Euro during the first quarter of 2015, which led to an increase of approximately € 1 bn.

As of 30 September 2014, in accordance with IAS 39, the Group has elected to reclassify certain impaired corporate bond loans from the 'Available-for-sale' portfolio to 'Loans and advances to customers' portfolio that meet the definition of loans and receivables and the Group has the intention and ability to hold them for the foreseeable future or until maturity. The reclassifications were made with effect from 30 September 2014 at the loans' fair value of € 150 million (gross amount of € 592 million less fair value adjustment of € 442 million), which became their amortized cost at the reclassification date. Considering that the reclassified bond loans are impaired, the fair value adjustment of € 442 million represented incurred credit losses already recognised by the Group as of the reclassification date.

As at 30 June 2015, the carrying amount of these loans is € 111 million which approximates their fair value and impairment losses of € 15 million were recognized in the consolidated income statement for the six months ended 30 June 2015. No amounts would have been recognized in the OCI had these financial assets not been reclassified.

15. Investment securities

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Available-for-sale investment securities	5,352	5,626
Debt securities lending portfolio	11,408	11,566
Held-to-maturity investment securities	671	657
	17,431	17,849
Debt securities lending portfolio	5,352 11,408 671	5,62 11,56 65

30 June 2015

The investment securities per category are analysed as follows:

	30 Julie 2013				
	Available-	Debt securities	Held-to-		
	-for-sale	lending	-maturity		
	securities	portfolio	securities	Total	
	€ million	€ million	<u>€ million</u>	€ million	
Debt securities					
- EFSF bonds	-	10,051	-	10,051	
- Greek government bonds	536	875	-	1,411	
- Greek government treasury bills	2,291	-	-	2,291	
- Other government bonds	1,927	307	408	2,642	
- Other issuers	268	175	263	706	
	5,022	11,408	671	17,101	
Equity securities	330	-	-	330	
Total	5,352	11,408	671	17,431	
		31 Decemb	ner 2014		
	Available-	Debt securities	Held-to-		
	-for-sale	lending	-maturity		
	securities	portfolio	securities	Total	
	€ million	€ million	€ million	€ million	
Debt securities					
- EFSF bonds	-	10,061	-	10,061	
- Greek government bonds	683	891	-	1,574	
- Greek government treasury bills	2,377	-	-	2,377	
- Other government bonds	2,013	411	372	2,796	
- Other issuers	259	203	285	747	
	5,332	11,566	657	17,555	
Equity securities	294			294	
Total	5,626	11,566	657	17,849	

In 2008 and 2010, in accordance with the amendments to IAS 39, the Group reclassified eligible debt securities from the 'Available-for-sale' portfolio to 'Debt securities lending' portfolio carried at amortized cost. Interest on the reclassified securities continued to be recognized in interest income using the effective interest rate method. As at 30 June 2015, the carrying amount of the reclassified securities was € 1,028 million. If the financial assets had not been reclassified, changes in the fair value for the period from the reclassification date until 30 June 2015 would have resulted in € 354 million losses net of tax, which would have been recognized in the available-for-sale revaluation reserve.

16. Investment property

The movement of investment property (net book value) is as follows:

	30 June
	2015
	<u>€ million</u>
Cost:	
Balance at 1 January	937
Transfers from/to repossessed assets	6
Other Transfers	3
Additions	19
Disposals and write-offs	(11)
Impairments	(10)
Exchange adjustments	0
Balance at 30 June	944
Accumulated depreciation:	
Balance at 1 January	(61)
Charge for the period	(5)
Exchange adjustments	(1)
Balance at 30 June	(67)
Net book value at 30 June	877

17. Shares in subsidiary undertakings

The following is a listing of the Bank's subsidiaries at 30 June 2015, included in the condensed consolidated interim financial statements for the period ended 30 June 2015:

<u>Name</u>	<u>Note</u>	Percentage holding	Country of incorporation	<u>Line of business</u>

Themeleion IV Mortgage Finance Plc		-	United Kingdom	Special purpose financing vehicle
Themeleion Mortgage Finance Plc		-	United Kingdom	Special purpose financing vehicle

The following entities are not included in the condensed consolidated interim financial statements mainly due to immateriality:

- (i) Holding entities of Group's special purpose financing vehicles: Anaptyxi II Holdings Ltd, Anaptyxi SME I Holdings Ltd, Daneion Holdings Ltd, Karta II Holdings Ltd, Themeleion III Holdings Ltd and Themeleion IV Holdings Ltd
- (ii) Dormant/under liquidation entities: Enalios Real Estate Development S.A., Hotels of Greece S.A., Proton Mutual Funds Management Company S.A
- (iii) Entities controlled by the Group pursuant to the terms of the relevant share pledge agreements: Finas S.A., Rovinvest S.A, Provet S.A and Promivet S.A.
- (a) Hellenic Postbank Hellenic Post Mutual Funds Mngt Company S.A., Greece

In January 2015, the Group acquired from Hellenic Post (ELTA) 49% of Hellenic Postbank – Hellenic Post Mutual Funds Management Company S.A. and thus the total Group participation to the company amounts to 100%.

(b) Eurobank Property Services S.A., Romania

In March 2015, the Group acquired from Lamda Development S.A 20% of Eurobank Property Services S.A. and thus the total Group participation to the company amounts to 100%.

(c) ERB Property Services d.o.o. Beograd, Serbia

In April 2015, the Group acquired from Lamda Development S.A 20% of ERB Property Services d.o.o. Beograd and thus the total Group participation to the company amounts to 100%.

(d) Global Fund Management S.A, Greece

In April 2015, the liquidation of the company was completed.

(e) Grivalia Hospitality S.A., Luxembourg

In June 2015, the Group established Grivalia Hospitality S.A. through its subsidiary GRIVALIA PROPERTIES R.E.I.C. Hence, the total Group participation to the company amounts to 20.48%.

(f) Diethnis Ktimatiki S.A., Greece

In May 2015, the Group acquired 100% of Diethnis Ktimatiki S.A. through its subsidiary Eurolife ERB Life Insurance S.A. The transaction was recognized as an acquisition of an asset that does not constitute a business, since the acquired entity is a single asset entity owning a vacant building, and thus did not give rise to goodwill.

(g) Byzantium Finance Plc, United Kingdom

In June 2015, the liquidation of the company was completed.

(h) Bancpost S.A., Romania

In June 2015, the Group acquired 0.04% of Bancpost S.A. and thus the total Group participation to the company amounts to 99.15%.

Post balance sheet events

Grivalia New Europe S.A., Luxembourg

In July 2015, the Group established Grivalia New Europe S.A. through its subsidiary GRIVALIA PROPERTIES R.E.I.C. Hence, the total Group participation to the company amounts to 20.48%.

Hellenic Postbank - Hellenic Post Mutual Funds Mngt, Greece

In September 2015, the Annual General Meeting of shareholders of the company decided its liquidation.

ERB Asset Fin d.o.o. Beograd, Serbia

In September 2015, it was decided the liquidation of the company.

18. Other assets

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Receivable from Deposit Guarantee and Investment Fund	672	668
Repossessed properties and relative prepayments	491	526
Pledged amount for a Greek sovereign risk financial guarantee	258	257
Income tax receivable	251	243
Prepaid expenses and accrued income	53	57
Investments in associated undertakings and joint ventures (see below)	6	6
Other assets	371	386
	2,102	2,143

As at 30 June 2015, other assets amounting to € 371 million mainly consist of receivables from (a) settlement balances with customers, (b) guarantees, (c) public entities, (d) fraudulent and legal cases, net of provisions and (e) insurance and brokerage activity.

The following is a listing of the Group's associated undertakings and joint ventures as at 30 June 2015:

<u>Name</u>	Country of incorporation	<u>Line of business</u>	Percentage Holding
Femion Ltd	Cyprus	Special purpose investment vehicle	66.45
Tefin S.A. ⁽¹⁾	Greece	Motor vehicle sales financing	50.00
Sinda Enterprises Company Ltd	Cyprus	Special purpose investment vehicle	48.00
Unitfinance S.A. (1)	Greece	Financing company	40.00
Rosequeens Properties Ltd	Cyprus	Special purpose investment vehicle	33.33
Rosequeens Properties SRL	Romania	Real estate company	33.33
Odyssey GP S.a.r.l.	Luxembourg	Special purpose investment vehicle	20.00

⁽¹⁾ In December 2013, the Extraordinary General Meeting of shareholders of the companies decided their liquidation.

Note: Filoxenia S.A. is a dormant and under liquidation associated undertaking not consolidated due to immateriality.

The Group's only associated undertaking is Odyssey GP S.a.r.l.

In January 2015, the Group disposed its participation interest of 50% in Cardlink S.A. The total number of shares of Cardlink S.A. which were held by the Group, were disposed to a company of the group "Quest Holdings S.A.", for a total consideration amount of € 7.5 million.

19. Due to central banks

30 June 31 December
2015 2014
<u>€ million</u> <u>€ million</u>
32,677 12,610

As at 30 June 2015, the Bank has increased its dependency on Eurosystem financing facilities to € 32.7 bn (of which € 22.9 bn funding from ELA) as a result of deposit withdrawals and reduction of wholesale secured funding. As at 30 September 2015, the Eurosystem funding stood at € 31.6 bn, of which € 22.3 bn funding from ELA.

20. Due to credit institutions

	640	811
		·

Medium-term notes (EMTN)

During the first half of 2015, the Group proceeded with the repurchase of medium term notes of face value of € 77 million, recognizing a gain of € 25 million.

Asset Backed Securities

During the first half of 2015, the Group proceeded with the redemption of residential mortgage backed securities and consumer loans backed securities of face value of € 2,596 million, of which € 11 million were held by third parties.

Government guaranteed and covered bonds

In January 2015, the Bank issued new government guaranteed bonds of face value of € 2,736 million.

During the second quarter of 2015, the Group proceeded with the cancellation of covered bonds of face value of € 3,050 million, held by the Bank and its subsidiaries.

As at 30 June 2015, the government guaranteed bonds under the second stream of the Greek Economy Liquidity Support Program (note 4), as well as the covered bonds, of face value of € 16,453 million and € 100 million respectively, were retained by the Bank and its subsidiaries.

According to the State Aid rules, as in force, it is provided that in the event that HFSF participates in the capital increase, the prior contribution of preferred securities holders and subordinated creditors is required to reduce the capital shortfall. In addition, senior notes may also be eligible instruments for contributing in the potential recapitalization, taking into account the 14 August Eurogroup statement that the bail-in will apply for senior bondholders whereas bail in of depositors is excluded (note 2).

Financial disclosures required by the Act 2620/28.08.2009 of the Bank of Greece in relation to the covered bonds issued, are available at the Bank's website.

Post balance sheet events

By the end of October 2015, the face value of government guaranteed bonds fully retained by the Bank, was decreased by € 2,410 million.

On 29 October 2015, the Bank launched a Liability Management Exercise (LME), aiming to strengthen the Bank's CET1 (note 31).

23. Other liabilities

	30 June	31 December

As at 30 June 2015, other liabilities amounting to € 328 million mainly consist of payables relating with (a) suppliers and creditors, (b) bank checks and remittances, (c) contributions to insurance organizations, (d) duties and other taxes, (e) credit card transactions under settlement and (f) liabilities from insurance activity.

As at 30 June 2015, other provisions amounting to € 85 million consist of amounts for (a) outstanding litigations and claims in dispute of € 63 million (note 29), and (b) other provisions for operational risk events of € 13 million, untaken vacation indemnity of € 2 million, and other of € 7 million.

24. Ordinary share capital, share premium and treasury shares

The par value of the Bank's shares is € 0.30 per share (31 December 2014: € 0.30). All shares are fully paid. The movement of ordinary share capital, share premium and treasury shares is as follows:

	Ordinary share capital <u>€ million</u>	Treasury shares <u>€ million</u>	Net <u>€ million</u>	Share premium <u>€ million</u>	Treasury shares <u>€ million</u>	Net <u>€ million</u>
Balance at 1 January 2015	4,412	(0)	4,412	6,682	(0)	6,682
Purchase of treasury shares	-	(6)	(6)	-	4	4
Sale of treasury shares	-	5	5		(3)	(3)
Balance at 30 June 2015	4,412	(1)	4,411	6,682	1	6,683

The following is an analysis of the movement in the number of shares issued by the Bank:

Balance at 1 January 2015
Purchase of treasury shares
Sale of treasury shares
Balance at 30 June 2015

Number of shares					
Issued ordinary	Troosury				
shares	Treasury shares	Net			
14,707,876,542	(1,241,629)	14,706,634,913			
-	(21,174,779)	(21,174,779)			
	18,392,992	18,392,992			
14,707,876,542	(4,023,416)	14,703,853,126			

Treasury shares

Under Law 3756/2009, banks participating in the Government's Greek Economy Liquidity Support Program are not allowed to acquire treasury shares under article 16 of the Company Law.

In the ordinary course of business, subsidiaries of the Group may acquire and dispose of treasury shares.

25. Preference shares

Preference Shares				
	30 June	31 December		
	2015	2014		
Number of shares	<u>€ million</u>	€ million		
345,500,000	950	950		

On 12 January 2009 the Extraordinary General Meeting of the Bank approved the issue of 345,500,000 non-voting, non-listed, non-transferable, tax deductible, non-cumulative 10% preference shares, with nominal value € 2.75 each, under Law 3723/2008 "Greek Economy Liquidity Support Program", to be fully subscribed to and paid by the Greek State with bonds of equivalent value. The proceeds of the issue total € 940 million, net of expenses, and the transaction was completed on 21 May 2009. In accordance with the current legal and regulatory framework, the issued shares have been classified as Common Equity Tier I capital.

The preference shares pay a non-cumulative coupon, subject to meeting minimum capital adequacy requirements, set by Bank of Greece (BoG), availability of distributable reserves in accordance with article 44a of Company Law 2190/1920 and the approval of the Annual General Meeting. Five years after the issue of the preference shares, the Bank may redeem the preference shares at their nominal value. If such redemption is not possible, because the Bank's capital adequacy ratio would fall below the minimum requirements set by the BoG, the preference shares will be converted into ordinary shares or shares of any other class existing at the time of the conversion following a decision of the Minister of Finance and after a recommendation by the Governor of the BoG and on condition that at the expiry of the five year period, the Bank will have submitted, and the Minister of Finance will have approved, further to a recommendation by the Governor of the BoG, a restructuring plan of the Bank pursuant to the legislation as in force. The conversion ratio will take into account the average market price of the Bank's ordinary shares during the calendar year preceding such conversion. In case of non redemption at the expiration of the five year period, the abovementioned coupon is increased by 2% each year, following relevant decision by the Minister of Finance, upon recommendation of the BoG.

Based on the 2014 results and Law 3723/2008 in combination with article 44a of Company Law 2190/1920, the distribution of dividends to either ordinary or preference shareholders is not permitted.

26. Preferred securities

The outstanding amount of preferred securities issued by the Group through its Special Purpose Entity, ERB Hellas Funding Limited, as at 30 June 2015 is analysed as follows:

	Series A	Series B	Series C	Series D	Total
	<u>€ million</u>				
At 30 June 2015	2	5	49	21	77

On 30 December 2014, ERB Hellas Funding Ltd announced the non-payment of the non-cumulative preferred dividend on the preferred securities of Series A, Series C and Series D, which otherwise would have been paid on 18 March 2015, 9 January 2015 and 29 January 2015, respectively.

On 31 March 2015, ERB Hellas Funding Ltd announced the non-payment of the non-cumulative preferred dividend on the preferred securities of Series C and Series D, which otherwise would have been paid on 9 April 2015 and 29 April 2015, respectively.

On 30 June 2015, ERB Hellas Funding Ltd announced the non-payment of the non-cumulative preferred dividend on the preferred securities of Series C and Series D, which otherwise would have been paid on 9 July 2015 and 29 July 2015, respectively.

According to the State Aid rules, as in force, it is provided that in the event that HFSF participates in the capital increase, the prior contribution of preferred securities holders and subordinated creditors is required to reduce the capital shortfall (note 2).

Post balance sheet events

On 30 September 2015, ERB Hellas Funding Ltd announced the non-payment of the non-cumulative preferred dividend on the preferred securities of Series B, Series C and Series D, which otherwise would have been paid on 2 November 2015, 9 October 2015 and 29 October 2015 respectively.

On 29 October 2015, the Bank launched a Liability Management Exercise (LME), aiming to strengthen the Bank's CET1 (note 31).

27. Fair value of financial assets and liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions (i.e. an exit price). When a quoted price for an identical asset or liability is not observable, fair value is measured using valuation techniques that are appropriate in the circumstances, and maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are developed using market data, such as publicly available information about actual events or transactions, and reflect assumptions that market participants would use when pricing financial instruments, such as quoted prices in active markets for similar instruments, interest rates and yield curves, implied volatilities and credit spreads.

Financial instruments carried at fair value

Trading assets, derivatives and other transactions undertaken for trading purposes, as well as available-for-sale securities and assets and liabilities designated at fair-value-through-profit-or-loss are measured at fair value by reference to quoted market prices when available. If quoted prices are not available, the fair values are estimated using valuation techniques. These financial instruments carried at fair value are categorized into the three levels of the fair value hierarchy as at 30 June 2015 based on whether the inputs to the fair values are observable or unobservable, as follows:

- (a) Level 1 Financial instruments measured based on quoted prices in active markets for identical financial instruments that the Group can access at the measurement date. A market is considered active when quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and represent actually and regularly occurring transactions. Level 1 financial instruments include actively quoted debt instruments, equity and derivative instruments traded on exchanges, as well as mutual funds and unit-linked products that have regularly and frequently published quotes.
- (b) Level 2 Financial instruments measured using valuation techniques with the following inputs: i) quoted prices for similar financial instruments in active markets, ii) quoted prices for identical or similar financial instruments in markets that are not active, iii) inputs other than quoted prices that are directly or indirectly observable, mainly interest rates and yield curves observable at commonly quoted intervals, forward exchange rates, equity prices, credit spreads and implied

volatilities obtained from internationally recognized market data providers and iv) may also include other unobservable inputs which are insignificant to the entire fair value measurement. Level 2 financial instruments mainly include over-the-counter (OTC) derivatives and less-liquid debt instruments.

(c) Level 3 – Financial instruments measured using valuation techniques with significant unobservable inputs. When developing unobservable inputs, best information available is used, including own data, while at the same time market participants' assumptions are reflected (e.g. assumptions about risk). Level 3 financial instruments include unquoted equities and certain OTC derivatives.

The fair value hierarchy categorization of the Group's financial assets and liabilities carried at fair value is presented in the following tables:

		30 June 2015			
	Level 1	Level 2	Level 3	Total	
	<u>€ million</u>	<u>€ million</u>	<u>€ million</u>	<u>€ million</u>

Total financial liabilities	265	2,789	-	3,054	

The Group recognizes transfers into and out of the fair value hierarchy levels at the beginning of the quarter in which a financial instrument's transfer was effected.

In the first half of 2015, the Group transferred the Greek listed available for sale and trading shares and the available for sale mutual funds with underlying Greek listed shares of € 33 million, € 21 million, and € 2 million respectively, from Level 1 to Level 2 due to their market's temporary closing (see below).

In the first half of 2015 the Group transferred derivative financial instruments of € 23 million from Level 2 to Level 3, which are valued using valuation techniques, where the CVA calculation is based on unobservable inputs that result in a CVA adjustment significant to the entire fair value of the derivative (2014: € 7 million).

Group's valuation processes

The Group uses widely recognized valuation models for determining the fair value of common financial instruments, such as interest and cross currency swaps, that use only observable market data and require little management estimation and judgment. Observable prices or model inputs are usually available in the market for listed debt and equity securities, exchange-traded and simple over-the-counter derivatives. Availability of observable market prices and model inputs reduces the need for management judgment and estimation and also reduces the uncertainty associated with determining fair values.

Where valuation techniques are used to determine the fair values of financial instruments, they are validated against historical data and, where possible, against current or recent observed transactions in different instruments, and periodically reviewed by qualified personnel independent of the personnel that created them. All models are certified before they are used and models are calibrated to ensure that outputs reflect actual data and comparative market prices. Fair values estimates obtained from models are adjusted for any other factors, such as liquidity risk or model uncertainties, to the extent that market participants would take them into account in pricing the instrument. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Group entity and the counterparty, where appropriate.

Global Market Counterparty Risk Sector establishes the processes and procedures governing the fair valuations, in line with the Group's accounting policies. Some of the specific valuation controls include: verification of observable pricing, re-performance of model valuations, a review and approval process for new models and/or changes to models, calibration and back-testing against observable market transactions, where available, analysis of significant valuation movements, etc. Where third parties' valuations are used for fair value measurement, these are reviewed in order to ensure compliance with the requirements of IFRS 13.

Valuation techniques

OTC derivative financial instruments are fair valued by discounting expected cash flows using market interest rates at the measurement date. Counterparty credit risk adjustments and own credit risk adjustments are applied to OTC derivatives, where appropriate. Bilateral credit risk adjustments consider the expected cash flows between the Group and its counterparties under the relevant terms of the derivative instruments and the effect of the credit risk on the valuation of these cash flows. As appropriate in circumstances, the Group considers also the effect of any credit risk mitigating arrangements, including collateral agreements and master netting agreements on the calculation of credit risk valuation adjustments (CVAs). CVA calculation uses probabilities of default (PDs) based on observable market data as credit default swaps (CDS) spreads, where appropriate, or based on internal rating models. The Group applies similar methodology for the calculation of debit-value-adjustments (DVAs), when applicable. Where valuation techniques are based on internal rating models and the relevant CVA is significant to the entire fair value measurement, such derivative instruments are categorized as Level 3 in the fair value hierarchy. A reasonably possible change in the main unobservable input (i.e. the recovery rate), used in their valuation, would not have a significant effect on their fair value measurement.

The Group determines fair values for debt securities held using quoted market prices in active markets for securities with similar credit risk, maturity and yield or by using discounted cash flows method.

For debt securities issued by the Group and designated at FVTPL, fair values are determined by discounting the expected cash flows at a risk-adjusted rate, where the Group's own credit risk is determined using inputs indirectly observable, i.e. quoted prices of similar securities issued by the Group or other Greek issuers.

The fair values of unquoted available-for-sale equity instruments are estimated mainly (i) using third parties' valuation reports based on investees' net assets, where management does not perform any further significant adjustments, and (ii) net assets' valuations, adjusted where considered necessary.

Financial instruments not carried at fair value

The following table presents the carrying amounts and fair values of financial assets and liabilities which are not carried at fair value on the balance sheet:

	30 June 2015	30 June 2015	
	Carrying	Fair	
	amount	value	
	<u>€ million</u>	<u>€ million</u>	
ans and advances to customers	41,070	41,169	
estment securities			
securities lending portfolio	11,408	11,075	
-to-maturity securities	671	664	
al assets	53,149	52,908	
in issue	607	240	
abilities	607	240	
	31 December 20	14	
	Carrying	Fair	
	amount	value	
	<u>€ million</u>	<u>€ million</u>	
tomers	42,133	42,060	
ing portfolio	11,566	11,046	
securities	657	623	
	54,356	53,729	
	774	639	
	774	639	

The assumptions and methodologies underlying the calculation of fair values of financial instruments not carried at fair value on the balance sheet date are in line with those used to calculate the fair values for financial instruments carried at fair value and are as follows:

- (a) Loans and advances to customers: for loans and advances to customers quoted market prices are not available as there are no active markets where these instruments are traded. The fair values are estimated by discounting future expected cash flows over the time period they are expected to be recovered, using appropriate risk-adjusted rates. Loans are grouped into homogenous assets with similar characteristics, as monitored by Management, such as product, borrower type and delinquency status, in order to improve the accuracy of the estimated valuation outputs. In estimating future cash flows, the Group makes assumptions on expected prepayments, product spreads and timing of collateral realization. The discount rates incorporate inputs for expected credit losses and interest rates, as appropriate.
- (b) Investment securities carried at amortized cost: the fair values of financial investments are determined using prices quoted in an active market when these are available. In other cases, fair values are determined using quoted market prices for securities with similar credit risk, maturity and yield or by using the discounted cash flows method.
- (c) Debt securities in issue: the fair values of the debt securities in issue are determined using quoted market prices, if available. If quoted prices are not available, fair values are determined based on quotes for similar debt securities or by discounting the expected cash flows at a risk-adjusted rate, where the Group's own credit risk is determined using inputs indirectly observable, i.e. quoted prices of similar securities issued by the Group or other Greek issuers.

For other financial instruments which are short term or re-price at frequent intervals (cash and balances with central banks, due from credit institutions, due to central banks, due to credit institutions and due to customers), the carrying amounts represent reasonable approximations of fair values.

Fair values of financial assets and liabilities with Greek sovereign and other Greek issuers

As at 30 June 2015, the economic and political situation in Greece, as described in note 2, contributed to the financial markets' increased volatility and instigated a sharp drop in the market prices of Greek securities, affecting accordingly, the relevant market variables used as inputs in the valuation techniques applied by the Group, e.g. credit spreads, implied volatilities.

Additionally, the bank holiday and the imposition of capital controls on 28 June 2015 forced the closing of the Electronic Secondary Securities Market (HDAT) and the Athens Stock Exchange until 3 August 2015 that are presumed by the Group as the principal markets for Greek government securities and Greek listed shares, respectively.

In the absence of HDAT's prices, the fair value measurement of Greek government securities was based on the quoted prices obtained by internationally recognized market data providers as at 30 June 2015. Since the imposition of capital controls until 30 June 2015, the Group recorded a mark to market loss of € 150 million, in relation to these securities. Additionally, the Group transferred into level 2 of the fair value hierarchy, the Greek listed available for sale and trading shares and the available for sale mutual funds with underlying Greek listed shares, due to their market's temporary closing as mentioned above.

Post Balance sheet event

The markets' positive sentiment subsequent to the announcement for the agreement of Greece's third bailout program, on 13 July 2015, led to the improvement of the Hellenic's Republic credit spreads and the increase of the Greek government securities' market prices that are, subsequent to the announcement, traded at significant higher levels, signaling in parallel the markets' gradual normalization. From 30 June 2015 until 30 September 2015, the Group recognized a mark to market gain of € 303 million, deriving from the increase in their market prices. Additionally, in the third quarter of 2015, the Group recognized a gain of € 65 million for derivatives with the Greek State.

28. Cash and cash equivalents and other information on Interim Cash Flow Statement

For the purpose of the cash flow statement, cash and cash equivalents comprise the following balances with less than 90 days original maturity:

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Cash and balances with central banks (excluding mandatory and		
collateral deposits with central banks)	1,135	1,092
Due from credit institutions	1,201	823
Financial instruments at fair value through profit or loss	0	25
Cash and cash equivalents presented within assets of disposal group		
classified as held for sale	15	38
	2,351	1,978

Other (income)/losses on investment securities presented in continuing operating activities are analysed as follows:

	30 June	30 June
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Amortisation of premiums/discounts and accrued interest	(42)	(70)
(Gains)/losses from sales	(22)	(55)
Dividends	(2)	(1)
	(66)	(126)

29. Contingent liabilities and commitments

Credit related commitments are analysed as follows:

	30 June	31 December
	2015	2014
	<u>€ million</u>	<u>€ million</u>
Guarantees ⁽¹⁾ and standby letters of credit	619	605
Other guarantees (medium risk) and documentary credits	505	471
Commitments to extend credit	349	498
	1,473	1,574

⁽¹⁾ Guarantees that carry the same credit risk as loans

Legal Proceedings

N. Karamouzis

As at 30 June 2015 there were a number of legal proceedings outstanding against the Group for which a provision of € 63 million was recorded (31 December 2014: € 60 million).

30. Board of Directors

The Board of Directors was elected by the Annual General Meeting held on 27 June 2013 for a three years term of office. The Annual General Meeting held on 26 June 2015 approved the extension of the term of office of the current Board until 2018 and more specifically by 27 June 2018, prolonged until the end of the period the Annual General Meeting for the year 2018 will take place. Further to the changes already reported up to the publication of the Annual Financial Report for the year ended 31 December 2014, the below changes in the composition of the Board of Directors have taken place since then:

On 28 April 2015, the Extraordinary General Meeting elected two new Board members, Mr. Stavros Ioannou and Mr. Theodoros Kalantonis.

On 13 May 2015, following the resignation of Mr. Josh Seegopaul, the Board appointed Mr. Stephen L. Johnson as new Board member.

Chairman, Non-Executive (nominated as Chairman on 1 February 2015)

Following the above, on 13 May 2015 the Board was reconstituted as a body, as follows:

S. Lorentziadis
Vice Chairman, Non-Executive Independent
F. Karavias
Chief Executive Officer (nominated as CEO on 1 February 2015)
S. Ioannou
Deputy Chief Executive Officer (nominated as Deputy CEO on 28 April 2015)
T. Kalantonis
Deputy Chief Executive Officer (nominated as Deputy CEO on 28 April 2015)
W. S. Burton
Non-Executive

G. Chryssikos Non-Executive

J. S. Haick Non-Executive Independent
B. P. Martin Non-Executive Independent

S. L. Johnson Non-Executive Independent (nominated as Non-Executive Independent on 13

May 2015)

C. Andreou Non-Executive (Greek State representative under Law 3723/2008 – appointed

as of 6 March 2015)

K. H. Prince – Wright Non-Executive (HFSF representative under Law 3864/2010)

31. Post balance sheet events

Acquisition of Alpha Bank's Branch in Bulgaria by Eurobank Bulgaria AD

On 17 July 2015 the Group announced that it has reached a preliminary agreement with Alpha Bank regarding the acquisition of Alpha Bank's Branch in Bulgaria by Eurobank's subsidiary in Bulgaria, Eurobank Bulgaria AD. The completion of the transaction is expected by the end of 2015 after the execution of a due diligence to be conducted to Alpha Bank's Branch and obtaining all necessary approvals by the competent authorities.

Upon completion of the acquisition of the Alpha Bank's Branch, which covers the entire banking operations of the Branch in Bulgaria, Eurobank Bulgaria AD is expected to strengthen its core market position in the Bulgarian banking sector and expand its

Selected Explanatory Notes to the Condensed Consolidated Interim Financial Statements

customer base in both the retail and corporate business banking segments. Eurobank Bulgaria AD is expected to benefit from significant synergies from the second year post completion of the acquisition, while maintaining its strong capital ratios and substantial liquidity buffers. The agreement is fully aligned with the restructuring plans for Alpha Bank and Eurobank, as approved by the European Commission in 2014.

Resolution Fund contributions

In the context of Directive 2014/59/EU for the recovery and resolution of credit institutions and investment firms (BRRD), which has been enacted in Greece with Law 4335/2015, and is also enacted in certain countries where the Group has activities (note 6), member states shall ensure that, by 31 December 2024, the available financial means of their national resolution authorities reach at least 1% of the amount of covered deposits of all the institutions authorised in their territory. The terms of calculation and payment of the contributions for the year 2015 are expected to be specified by the relevant national resolution authorities within the following months. In this context, the Group recognized a provision of € 40 million in relation to the above expected contributions, in the third quarter of 2015.

In addition, according to Law 4335/2015 and following the designation of Resolution Branch of HDIGF as the national resolution fund (note 6), total assets and liabilities of the said scheme were transferred to a separate account within HDIGF ('Account for the Settlement of Past Years' Resolution Measures') for which the Group expects that it will continue to recognize annual contributions as specified by HDIGF. The process for determining such contributions and other key terms of the abovementioned account are expected to be defined upon the transposition of Directive 2014/49/EU on deposit guarantee schemes in the Greek law.

Furthermore, in line with Law 3746/2009 and following a decision notified by HDIGF in October 2015, Greek banks are required to pay in the year 2015 supplementary contributions for the funding of resolution measures for 'Panellinia Bank S.A', in relation to which the Bank's contribution is expected to amount to € 12 million and will be recognized in the fourth quarter of 2015.

As per the draft law submitted to the Greek Parliament on 30 October 2015, the provision of Law 4335/2015 for the establishment of a separate account within HDIGF, referred to above, is abolished.

Liability Management Exercise (LME)

On 29 October 2015, the Bank launched a Liability Management Exercise (LME), aiming to strengthen the Bank's CET1 and, in combination with the planned share capital increase of the Bank through a bookbuilding process, to cover the additional Bank's capital requirements, which have been derived from the Comprehensive Assessment of the Greek financial sector that was conducted by the SSM (note 6).

LME is effected on a voluntary basis inviting the eligible securities' holders to:

- a) tender such outstanding securities issued by the Bank and its SPVs (ERB Hellas Funding, ERB Hellas PLC and ERB Hellas Cayman) for purchase against cash at a purchase price equal to, in the case of:
- Tier I securities (preferred securities), 50% of the liquidation preference of such securities
- Tier II securities (subordinated securities), 80% of their outstanding principal amount plus accrued interest
- Senior securities, 100% of their outstanding principal amount plus accrued interest
- Structured senior securities, the relevant early repurchase price

b) irrevocably instruct the relevant Offeror which for all the said securities' takeover will be the Bank, exempting Series C of the Tier I securities, where the Offeror will be ERB Hellas Funding Limited to deposit the aggregate purchase proceeds in the share capital increase account for the sole purpose of subscribing for new ordinary registered shares of the Bank at the new shares price to be set through the results of the bookbuilding process during the Bank's upcoming share capital increase.

The Bank will accept less than the aggregate tendered amount of securities if (i) the sum of the LME generated capital amount and the bookbulding process capital amount would exceed the capital requirement and (ii) the Bank determines in its sole discretion that it is appropriate to apply a scaling factor to acceptances in respect of the offers.

The Offer Period is expected to commence, on or about 4 November 2015 and will expire on 11 November 2015, whereas the announcement of the LME results is expected on or about 16 November 2015.

Details of other significant post balance sheet events are provided in the following notes:

Note 2-Principal accounting policies

Note 4-Greek Economy Liquidity Support Program

Note 6-Capital management

Note 11-Other impairment and non recurring income/(expenses)

Note 12-Income tax and non recurring tax adjustments

Note 17-Shares in subsidiary undertakings

Note 19-Due to central banks

Note 22-Debt securities in issue

Note 26-Preferred securities

Note 27-Fair value of financial assets and liabilities

32. Related parties

In May 2013, following its full subscription in the Bank's recapitalization of € 5,839 million, the HFSF became the controlling shareholder and a related party of the Bank. In May 2014, following the completion of the Bank's share capital increase for raising € 2,864 million, fully covered by private, institutional and other investors, the percentage of the ordinary shares with voting rights held by the HFSF decreased from 95.23% to 35.41%.

In addition, in the context of the Law 3864/2010 (the 'HFSF Law') as amended by Law 4254/2014, the HFSF's voting rights in the Bank's General Assemblies have been switched to restricted ones. Accordingly, as of early May 2014, the HFSF is no more the controlling shareholder of the Bank but is considered to have significant influence over it.

Furthermore, in the context of the amended HFSF Law and following the completion of the aforementioned Bank's share capital increase, on 28 August 2014 HFSF entered into a new Relationship Framework Agreement (RFA) with Eurobank, similar to that of the other systemic banks, which regulates, among others, (a) the Bank's corporate governance, (b) the development and approval of the Bank's Restructuring Plan, (c) the material obligations deriving from the Restructuring Plan and the switch of voting rights, (d) the monitoring of the implementation of the Restructuring Plan and the Bank's ensuing risk profile and (e) the significant matters requiring the HFSF's consent.

A number of banking transactions are entered into with related parties in the normal course of business and are conducted on an arm's length basis. These include loans, deposits and guarantees. In addition, as part of its normal course of business in investment banking activities, the Group at times may hold positions in debt and equity instruments of related parties.

The outstanding balances of the said related party transactions and the relating income and expenses are as follows:

	30 June 2015		3	1 December 2014		
	Key management personnel (KMP) ⁽¹⁾	Entities controlled or jointly controlled by KMP, associates & joint ventures	HFSF	Key management personnel (KMP) ⁽¹⁾	Entities controlled or jointly controlled by KMP, associates & joint ventures	HFSF

⁽¹⁾ Key management personnel includes directors and key management personnel of the Group and HFSF (until early May 2014) and their close family members. For the period until early May 2014, the amounts of income and expenses in relation with transactions with directors and key management personnel of HFSF and their close family members were immaterial.

In addition, as at 30 June 2015 the loans, net of provisions, granted to non consolidated entities controlled by the Bank pursuant to the terms of the relevant share pledge agreements (note 17) amounted to € 3.8 million (31 December 2014: 3 million).

Key management compensation (directors and other key management personnel of the Group)

Key management personnel are entitled to compensation in the form of short-term employee benefits of € 3.49 million (30 June 2014: € 2.78 million) and long-term employee benefits (excluding share-based payments) of € 0.48 million (30 June 2014: € 0.35 million). Additionally, the Group has recognized € 0.5 million expense relating with equity settled share based payments (30 June 2014: € 0.12 million income relating with forfeited share options).
